| Core	Deadline: Sunday of Week 1	Difficulty Level: Basic	Est. Time: 15 - 30 mins

Algo App Level 1 (Core)

Familiarize yourself with our Algorithm App - your constant companion throughout Programming Basics.

Learning Objectives

- Practice using variables and predict the value(s) that appear in the `console.log`

Here's what a challenge in the Algorithm App looks like:

When you have Algo App assignments, follow these steps:

1. Read the checklist (below) to find out which levels you are supposed to complete.

2. Click the Algo App link to open it in a new tab, and work through the assigned level

3. When you finish the level you were assigned, take a screenshot! Then, come back to this assignment page, upload your screenshot, and check that task off of the checklist (below).

☑ ~~Complete Level one of the algorithm app~~

☑ ~~Upload a screenshot of your completed Level 1~~
